

Air/Gas Probe (ST-38B)

- 0°C ~ 600°C
- Fast response probe.
- Ideal for measuring air, gases, freezers, ovens, fans and its drilled sheath protects elements and assures airflow.

Bead Probe (ST-39)

- 0°C ~ 180°C / small wire diameter
- For measuring of air temperatures. 1 meter wire with an industry standard miniature connector plug.
- Best suitable for measuring SMD component temperature and tiny components.
